Vision to Action  
Clarity, Engagement, Alignment

## Vision to Action

### Clarity, Engagement, Alignment

**LIW** offer Vision to Action workshops to help organisations respond to complex, multi-stakeholder opportunities and challenges. The highly interactive workshops of one or more days lead to clarity of action and executable plans aligned to your organisational vision. It works for whole companies, as well as specific projects, teams, alliances, JVs and partnerships – to identify and plan for success.

### Aims

- To generate or clarify what constitutes success for you?
- To identify and map the actions required to achieve success
- To see what will help and hinder you and to put the right actions in place
- To encourage a climate where all stakeholders are heard and the best option is decided on.
- To instil enthusiasm and commitment to deliver results

### Outcomes

Decisions and actions that:

- Deliver the required results
- Are sustainable and 'stick'
- Are co-ordinated and aligned to the organisational vision and strategy
- Create energy, enthusiasm and commitment to succeed
- Provide confidence in the best and the toughest of times

### What we do

Vision to Action is the result of combining key elements of leadership with robust facilitative processes.

These typically include:

- What are you trying to achieve and why?
- Where are you now?
- What's helping, what's hindering?
- Creating the conditions for success
- Emotional Intelligence individually and as a team
- Ways of working
- Actions, measures and commitments
- Success map with actions and clear accountability
- Blended learning

"However beautiful the strategy, you should occasionally look at the results."

**Winston Churchill**

### Further Options

- Developing High Performing Teams
- Managing Conflict
- 360° Feedback
- 1:1 Coaching
- Communications Strategy
- Review Meetings

### Results

People feel and can see that they are making a difference. Great ideas are heard, captured and acted on with speed. From the client who found and went after a new £15m market opportunity that was not known about, to mapping the team strategy for sales success in Africa and blowing their sales targets out of the water two years in a row - it works.
